(Security Policy - Directive No. 1)

REFERENCE

Discussion between
25 November 1962

25X1A

a. I have discussed the subject directive with the Chief, Security Branch, OSA, and suggest the following action with regard to [redacted] Projects:

a. That the following senior program officials be immediately designated as approving officers for "need-to-know" (paragraph 6, Subject directive):

- (1) Deputy Director (Research), CIA
- (2) Assistant Director/Special Activities

(In fact, of course, OSA will perform the staff work in this regard.)

b. Disseminate for the guidance of [redacted] of the various agencies the new routing procedures for requests for project clearances which should be directed to the DDCO (e.g., policy officials of the U. S. Government who require knowledge of the reconnaissance effort but not the specific details of the separate projects.)

4. With regard to industrial personnel since I do not see the point precisely covered in the directive, the Director, [redacted] as in the past, will continue to be the final authority with regard to "must-know" for all non-U. S. Government personnel.

25X1A

2. In addition to the above observations, I am having the various components of OSA review the Directive No. 1, and you will be informed of any significant comments.
